EDUCATION

Jaypee University of Engineering & Technology
B.Tech — Computer Science & Engineering

2022–2026

EXPERIENCE

BitBattles ESP Private Limited

Full Stack Web Developer Intern

Sep '24–Nov '24

certificate Noida

- Built RESTful APIs to connect frontend applications with backend services.
- Optimized MongoDB queries to improve performance and reduce response time.
- Performed unit, integration, and API testing; documented endpoints using Postman.

Trustique Assist Private Limited

Full Stack Developer Intern & Team Lead

May '25–July '25

certificate Remote

- Designed and developed scalable web applications using React, Next.js, Node.js, and Supabase.
- Implemented role-based authentication, authorization, and secure REST API integrations.
- Led sprint planning, conducted code reviews, and coordinated production releases.
- Promoted to Team Lead after consistently delivering critical application modules on schedule.

PERSONAL PROJECTS

Zenvilla – Real Estate Web Application

2025

- Developed a full-stack real estate platform using Next.js, Express.js, and PostgreSQL
- Built RESTful APIs for property listings, user data, and search functionality
- Implemented dynamic filtering (price, location, type) to enhance user experience
- Deployed on AWS (EC2, S3, RDS) with responsive and scalable architecture

AI-Powered Chat Assistant

2024

Project description (Built a real-time AI-based chat application.)

- Tools & technologies used: React, Gemini AI
- More description on the project (Implemented authentication, protected routes, and session handling.)

BanterBox – Real-Time Chat Application

2023–2024

Project description (Developed a real-time chat application.)

- Tools & technologies used: MongoDB, Express, React, Node.js, Socket.io
- More description on the project (Designed responsive UI and enabled real-time messaging.)

TECHNICAL SKILLS AND INTERESTS

Languages: JavaScript, TypeScript, Python, C, C++, HTML, CSS

Developer Tools: Git, Docker, AWS, Postman, CI/CD Pipelines

Frameworks: React, Next.js, Node.js, Express.js, PHP, REST API

Databases: MongoDB, PostgreSQL, MySQL, Supabase

Additional: WordPress (CMS customization), Web Design Principles, Bootstrap, Tailwind

POSITIONS OF RESPONSIBILITY

Advisor, Arts & Events Wing — Jaypee University of Engineering & Technology

2023–Present

ACHIEVEMENTS

Promoted to Team Lead during internship based on performance and leadership.
Represented the university in Table Tennis competitions.
